

THE INTERNATIONAL CERTIFICATION NETWORK

CERTIFICATE

AENOR has issued an IQNet recognized certificate that the organization:

ELECNOR SERVICIOS Y PROYECTOS, S.A.U.

SEE ADDRESSES SPECIFIED IN ANNEX

has implemented and maintains a

Occupational Health and Safety Management System

for the following scope:

SPECIFIED IN ANNEX TO THE CERTIFICATE

which fulfills the requirements of the following standard

ISO 45001:2018

First issued on: **2021-08-12** *Validity date:* **2024-08-12**

This attestation is directly linked to the IQNet Partner's original certificate and shall not be used as a stand-alone document

Registration Number: ES-SST-0164/2007

THE INTERNATIONAL CERTIFICATION NETWORK

Annex to IQNet Certificate Number ES-SST-0164/2007
ELECNOR SERVICIOS Y PROYECTOS, S.A.U.

Activities within the scope of IQNet Certificate ELECNOR SERVICIOS Y PROYECTOS, S.A.U. Number ES-SST-0164/2007 include the following:

- A) The design, construction, assembling, start-up and maintenance of industrial plants, energy generation plants and power transformation plants with the installation of: electricity, liquids, compressed air, sanitation, air[1]conditioning, metal structures, instrumentation, control, communications, security, fire extinguishing and civil works.
- B) The design, construction, assembling, start-up and maintenance of railway installations and the: electric supply, traction substations, catenary, signalling, communication and its civil works, and the installation systems of: security, fire extinguishing, ventilation, airconditioning, information, location and auxiliary.
- C) The design, construction and maintenance of transport:
- Electric power lines. Transmission lines: overhead transmission lines over 66 kv. Underground transmission lines over 66 kv. Fiber optic installation on overhead transmission lines over 66 kv.
 - Electric power distribution installations: overhead and underground lines in low, medium, and high tension. Substations.
 - Transport and distribution gas infrastructures: transport gas pipelined. Distribution networks and auxiliary installations.
- D) Design, construction, start-up and maintenance of:
- Water treatment plants (potable and waste water)
 - Plants and facilities for waste transport, treatment, recycling and disposal.
- E) The design, construction, installation and maintenance of electric power distribution installations: overhead and underground lines in low, medium, and high tension. Substations. Electric power measurement installations. Live working in electric power distribution installations.

First issued on: 2021-08-12 Validity date: 2024-08-12

ELECNOR SERVICIOS Y PROYECTOS, S.A.U.

- F) The design, construction, installation and maintenance of gas installations: transport gas pipelined. Distribution networks and connections. Measurement and regulating stations. Home and commercial installations.
- G) The design, construction, installation and maintenance of communication installations: the construction of overhead communication lines, in front and pipelined. Paying and joint of communication cables, protections, cables measures and tests. Installations of uniline equipments (duty orders). The construction of telecommunication towers antenna. The construction of standardized buildings for terrestrial mobile services.
- H) The design, construction, installation and maintenance of general installations:
- Electricity installations (high and low tension, dc, power stations of electrical energy, parks of renewable energies, road and sport lighting systems, signalings and road markings)
 - Mechanical installations (metal structures, plumbing and overflow pipes, ventilation, air conditioning and heating, compressed air and technical gases)
 - Installations of weak signals (instrumentation, control, communications data, megaphone, television)
 - Installations of security (closed circuits television, intrusion installation, accesses control)
- I) Technological facilities: telecommunications, structured cabling, wireless networks, communications equipment, information systems, management platforms, control systems, interactive whiteboards (IWB) and audiovisual equipment for industries, buildings and data processingcenters (DPC).
- J) The type of construction work of: - Earthworks and perforating (levelling and excavating, grading, quarrying, mine shafts and mine galleries). - Bridges, viaducts and large structures (fabric or bulk concrete, reinforced concrete, steel). - Construction and rehabilitation of singular buildings (demolitions concrete structures, steel structures, masonry coating, stonecutting, marble works, pavements, paved and tiled, isolations). - Hydraulic works (water supply and sewerage, diches

and drainages, bank protection and channelling, large diameter pressure pipelines, unclassified hydraulic works). - Roads and runaways (reinforced concrete pavements, bituminous concrete pavements, traffic signalling and beacons, unclassified road works). - Sea works, roads, residential areas, concrete paving, signalling and road buoying; special foundations, grouting, pile work; gardening and planting. - Railways (railways signalling and interlocking systems, power supply for railways, unclassified railway works). - Associated civil works for: generation and electric power transformation plant.

K) Inspection and revision of receiving gas sets.

L) Protection against fire

Construction, commissioning and maintenance of the following Fire Protection equipment and systems - Fire detection and fire-alarm systems - Fire protection water supply systems - Fire hydrants - Fire extinguishers - Fully equipped firefighting fixtures - Dry columns - Firefighting Components for sprinkler and water spray systems.

Extinction using Water mist extinguishing systems

- Extinction using foam extinguishing systems
- Extinction using Powder extinguishers systems
- Extinction using Gaseous extinguishing agents
- Extinction by condensate sprays
- Smoke and heat control
- Luminescent signaling.

N) The design, construction and maintenance of Public Light Installations

O) Protection Against Fire

Design, construction, commissioning and maintenance of the following Fire Protection equipment and systems

- Fire detection and fire-alarm systems
- Fire protection water supply systems
 - Fire hydrants
 - Fire extinguishers
- Fully equipped firefighting fixtures
 - Dry columns
- Firefighting Components for sprinkler and water spray systems
 - Extinction using Water mist extinguishing systems
 - Extinction using Foam extinguishing systems
